

WHY SORTIMO BY KNAPHEIDE

- » Find things when you need them
- » More time working and not searching for parts
- » Less trips back to job site looking for tools
- » Correct inventory resulting in payload weight reduction
- » Improves fuel efficiency

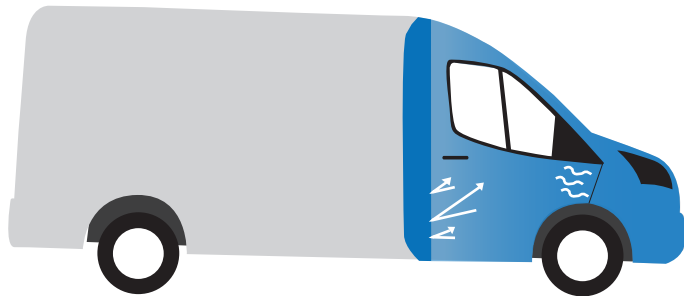

ORGANIZATION

- » The Sortimo BOXX allows for taking organization from vehicle to job site
- » Removable BOXX requires fewer trips back and forth to van
- » Improves productivity

MOBILITY

- » Fits contours around van b-pillar area
- » Closes large gaps typically found in traditional steel partitions
- » Easier to heat/cool passenger area while not heating/cooling the whole van
- » Less load on ventilation system improves fuel economy
- » Partition also acts as sound barrier from noises in cargo
- » Quieter compartment results in more alert driver and allows driver to utilize hand free technology with phone calls

CLIMATE EFFICIENCY & SAFETY

- » Combination of composites, polymers, and steel
- » Lightweight
- » Strong and durable
- » Improves fuel efficiency
