## SORTING & MOBILITY

All vehicle organization systems by nature offer the user some level of organization. Even a basic three shelf system offers more organization than no shelving at all.

The density of organization and storage of a Sortimo system makes it the premier organization system in the market today. Keeping your parts and tools organized means less time spent looking for items and the ability to easily inventory them on the vehicle.

Having the right parts and tools, and being able to find them when you want them, results in improved worker efficiency.

Other vehicle organization systems offer limited mobility. This is where the Sortimo system is unique to the market. Mobility is made possible through the use of BOXXes.

Sortimo has many different types and sizes of BOXXes to meet your organization needs. BOXXes are secured into tracks on the shelves that hold them in place when the vehicle is in motion.

Having the ability to remove the BOXXes from the vehicle and take them with you to the jobsite allows you to be organized inside the vehicle and out.

## EXXPAND<sup>®</sup>

Sortimo's program for ready-to-market products is called Exxpand. Exxpand is the easiest way for our customers to organize their vans and optimize their operations. By utilizing our North American warehouse and our nationwide network of distributors, we can quickly get any product within the Exxpand program ready to ship and install, and ready for the end user to put it to work in their vehicle.

- Modular configurations of products allow for easy to configure solutions
- Predesigned packages based on vehicle configuration and vocation
- Products are ready to ship and ready to install
- Competitive pricing to meet the needs of the market

All of the products included within this catalog are part of the Exxpand program.

## CUSTOM SOLUTIONS

Sortimo also offers a custom design service where a design professional will work directly with the distributor, dealer, or end customer to develop a cargo organization system that is custom-tailored to the way the end customer uses their vehicle. In a custom solution, all Sortimo products can be utilized to develop a solution that best fits the needs of the customer. Since custom design solutions are developed on an individual basis, they will typically be priced higher than an Exxpand solution and will have a product lead time of 4-12 weeks. Thus, the custom path to vehicle organization should be considered when an off-the-shelf solution with Exxpand is not available.

- Ultimate flexibility in design allows for unlimited configurations
- Custom designed to meet the end user's organization needs
- Consultative design approach
- Utilizes all Sortimo products to develop an individualized solution

For more information on custom solutions, please visit the Sortimo website at [sortimo.us](http://sortimo.us) and click on "Custom Solutions" under the "Vocations" section. To initiate a custom request, please call us at 844-EXXPAND.

# Protect the most valuable asset in the van...you.

## » PROTEXX PARTITIONS

Protexx Partitions divide your work van into two separate zones: the passenger area, which doubles as a mobile office, and the cargo area for storing parts and tools. In the event of an unplanned stop, Protexx Partitions offer an extra level of safety and security. Partitions are contoured to fit each van and conform to the B-pillar trim and headliner in the van.

- Reduces the amount of noise in the passenger area of the van coming from items in the cargo area. This creates a safer and more comfortable environment for the driver.
- Heat or cool just the passenger area rather than the entire van.
- Allows for full seat travel and a reasonable amount of seat recline. This is especially important for driver comfort in smaller vans.

## » SHELF STAXX & SHELF STAXX AXCESSORIES

Shelf Staxx are a lightweight, durable van shelving system that creates an organizational solution for your van. The modular design allows for flexibility in both configuration and layout. Shelf Staxx's modern appearance compliments both the current and new generation of commercial vans.

- **Lightweight** – Fiberglass, pultruded end panels have a very strong strength-to-weight ratio and is the same process that is used to make the ladder rails on fiberglass ladders. Shelf Staxx are typically 25-30 percent lighter than a traditional steel shelving unit of comparable size.
- **Modular** – The modular design approach allows for the ability to mix and match different Shelf Staxx modules when configuring your van. Shelf Staxx are universal and are designed to work across multiple van makes and models.
- **Upgradable** – All Shelf Staxx can easily be upgraded with BOXXes, Axxessories, or our pre-designed vocational packages, which we call ProPaxx.

## » ROOF RAXX OPTIONS

### » SIDE SUPPORT KIT

**Part #:** 1000005397

**Weight:** 0.7 lbs.

Side support kits attach to the end of the roof bow to create the most basic of ladder racks. Each kit includes 1 side support and mounting hardware to attach it to a crossbar. For a bow style ladder rack, order 2 kits per crossbar.

### » SECURING STRAP

**Part #:** 1000003942

**Weight:** 0.3 lbs.

This lashing strap can be used to secure items to Roof Raxx cross bows. It includes a clamp buckle that can be easily be tensioned and loosened. The strap is 47" long x 1" wide and consists of 100% Polyester.

## » INTERIOR LADDER HOLDER

### » INTERIOR LADDER HOLDER

**Part #:** 1000004569-KIT

**Weight:** 14 lbs.

Use an interior ladder holder to secure a ladder to the roof inside a van. The ladder holder is ideal for step ladders that are 6' in length, but is also adjustable for different lengths of ladders. The ladder holder has a rung support that slides the length of the holder to make loading and unloading the ladder easier. A gas prop is incorporated to secure the ladder while the vehicle is in motion. Max Load is 40 lbs. Not compatible with the Ford Transit Connect.

# Easy access with lots of storage.

## » MAXX DRAWERS

MAXX Drawers offer plenty of storage space and are perfect for storing heavy equipment or bulky materials in the van. All MAXX drawers include a large, ergonomic handle for easily opening and closing of the drawer.

- Each drawer is mounted on 200 lb rated telescopic slides to handle the most demanding of loads
- Locating these drawers close to vehicle openings allows the user to easily load and unload items into the drawers without having to step up into the van.
- MAXX Drawers are modular and many solutions can be created by either mounting the drawers side by side or stacking them on top of one another and choosing the appropriate top plate or top shelf for the application.

# MAXX DRAWER MODULAR SOLUTION PROCESS

## STEP 1:

Choose a MAXX Drawer Unit

## STEP 2:

Add more to create a stack (optional)

## STEP 3:

Add a ProSafe top cover plate or a top cover shelf tray

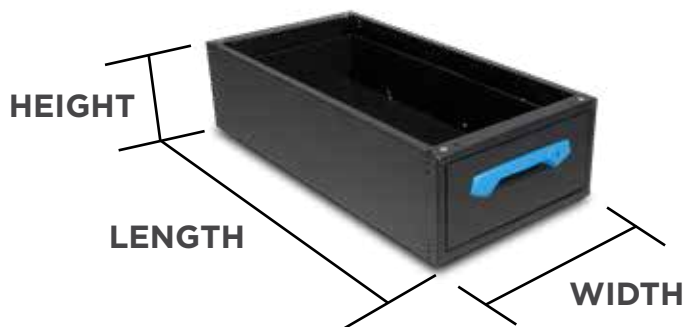

## STEP 4:

Add optional drawer dividers, top shelf dividers, or ProSafe lashing straps

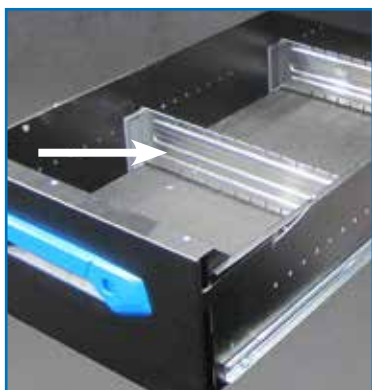

## MAXX DRAWERS:

All drawers include a large, ergonomic handle for easily opening and closing of the drawer. Each drawer is rated at 200 lbs. capacity. Each drawer includes a drawer liner and a mounting kit.

# Drop-down shelving and cargo management all in one.

## » FLEXX RACK

FLEXX Rack is a modular, drop-down shelving and cargo management system all in one. It has been developed especially for the requirements of courier, express, and parcel delivery service providers.

- Shelves are constructed of an innovative Sortimo composite material which is lightweight but still maintains a load rating of 265 lbs. per shelf.
- Shelves are automatically retained when folded up which facilitates a simple one-hand operation.
- When the shelves are folded up, both horizontal and vertical securing of payload is possible through the integrated load securing system ProSafe.
- FLEXX Rack can be configured uniquely for every vehicle. Each shelf can be adjusted in both height and inclination angle.

### Warranty and Limitation of Liability

Sortimo warrants its van interior equipment to be free from defects in material and workmanship, under normal use and service for a period of three years or 36,000 miles, whichever occurs first, after the date of delivery to the original retail purchaser, when installed by an authorized Sortimo Distributor and/or Sortimo upfit facility. Products not installed by an authorized Sortimo Distributor and/or Sortimo upfit facility will not be subject to any warranty whatsoever and ANY AND ALL WARRANTIES WHATSOEVER RELATIVE TO SUCH SALES ARE

HEREBY FULLY AND EXPRESSLY DISCLAIMED. This warranty only provides for the following remedy: repairs at the point of Sortimo's main place of business or any of its Distributor locations, or part replacements in part or in full to correct any defects related to material and workmanship. This warranty does not apply to products not installed by an authorized Sortimo Distributor and/or Sortimo upfit facility.
